There are two reasons to test for COVID-19; reservation clinics continue to test

In all four district, Colville Service Unit clinics and Lake Roosevelt Community Health Center clinics continue to test for COVID-19.

To date, the clinics have run just under 2,000 tests, finding a total of 66 positive cases of COVID-19 on the Colville Reservation. Additional cases have come from off-reservation clinics.

There are two reasons to test: First, if you have been in direct contact (within 6 feet for more than 15 minutes, unmasked), and second, if you have symptoms associated with the virus. In addition all four clinics do offer RANDOM testing, this is being done so we can determine if we have any asymptomatic cases in our communities.
