Random COVID-19 testing available at clinics across Colville Reservation

The Colville Service Unit and Lake Roosevelt Community Health Center Clinics of the Colville Confederated Tribes are offering COVID-19 Random Testing. This means if a patient of any of our clinics would like to have a test they can come to any of our 4 clinics.

Why Random Testing?

We want to determine if we have an asymptomatic cases in our community and care for them accordingly. These tests will be exempt from the Quarantine order, so patients will not be required to quarantine until a result is received. Most tests will be the Rapid test available. In the event a positive case is detected the Health Officer will issue the required isolation order.

Below is the schedule of hours for the testing; of course if a person is symptomatic or has been exposed or suspect they have been exposed it is very important for them to be tested.
