

Taxonomic Identification and Enumeration of Ichthyoplankton and Zooplankton Samples – RFP Questions and Answers

What is the tentative schedule (approximate month) for the arrival of each of the three batches of samples?

We would send the 188 samples (from 2021, 2022, and 2023) as soon as we have a contract in place. The 2024 and 2025 samples will be collected in April, May, and possibly June of each year. We would be flexible on sample delivery. For example, we could send them monthly or all together at the conclusion of sampling in June.
